2017

MAKERS OF THE ORIGINAL SWISS ARMY KNIFE | ESTABLISHED 1884

**HOUSEHOLD AND
PROFESSIONAL KNIVES
2017**

VICTORINOX 1884-2017 MORE THAN 130 YEARS OF EXPERIENCE AND LIVED SWISS TRADITION

The little red pocket knife, with Cross & Shield emblem on the handle is an instantly recognizable symbol of our company. In a unique way, it conveys excellence in Swiss craftsmanship, and also the impressive expertise of more than 2,000 employees worldwide.

The principles by which we do business, are as relevant today as they were in 1897 when our company founder, Karl Elsener, developed the «Original Swiss Army Knife»: functionality, innovation, iconic design and uncompromising quality. Our commitment to these principles for more than 130 years has allowed us to develop products that are not only extraordinary in design and quality, but also in their ability to serve as reliable companions on life's adventures, both great and small.

Today, the full range of Victorinox knives is comprised of over 1,200 models. The range is presented in two, separate catalogs: «Swiss Army Knives» and «Household and Professional Knives». We are pleased to offer this streamlined assortment, with our best, and perhaps future classics.

Carl Elsener

STAINLESS STEEL

All steel blades are made of martensitic stainless steel. The basis for optimum function and durability of a blade, is the use of the correct steel alloy. The steel should deliver the perfect combination of cutting edge retention and corrosion protection. It should also be flexible, so it does not break during use.

The following steel alloys are used for household and professional knives:

MATERIAL NO.	ABBREVIATION DIN	ABBREVIATION AISI	C (%)	CR (%)	MO (%)	V (%)
1.4419	X 38 Cr Mo 14	420	0.38	14	0.8	
1.4034	X 46 Cr 13	420	0.43 - 0.50	12.5 - 14.5		
1.4116	X 50 Cr Mo V 15	440A	0.45 - 0.55	14.0 - 15.0	0.50 - 0.80	0.1 - 0.2
1.4110	X 55 Cr Mo 14	440A	0.48 - 0.60	13.0 - 15.0	0.50 - 0.80	≤ 0.15

All Victorinox alloys are in accordance with Regulation (EG) no. 1935/2004 for products that come into contact with food.

SUSTAINABILITY

Since decades, issues concerning environmental protection and sustainability have been given high priority at Victorinox.

100% RECYCLED STEEL

EDGE AND BLADE TYPES 6.8500.17G

The edge and blade type coding of the knife assortment (except Swibo) are denoted as the 4th digit of the item number.

HACCP COLOR CODING 5.2001.19

(Hazard Analysis Critical Control Points)

FibroX handles are made from TPE. They feature excellent non-slip properties, can be used at temperatures of up to 80 - 110°C and can also be sterilised. These properties are ideal for ensuring safe use in a professional environment. To make the different applications for all knives visible, we offer

many FibroX models in 6 colors. This risk management corresponds to the internationally recognized HACCP system and ensures a high level of safety in food processing.

MATERIALS

POLYAMIDE

PA

Polyamide is extremely strong and combines excellent rigidity with high impact strength. It benefits from good abrasion resistance and sliding properties, can be sterilised and is suitable for use at temperatures of up to 80 - 110°C.

SWIBO

POLYPROPYLENE

PP

Polypropylene exhibits good strength, rigidity and hardness. It is suitable for sterilisation and can be used at temperatures of up to 80 - 100°C.

SWISS CLASSIC, STANDARD

POLYOXYMETHYLENE

POM

POM features excellent strength, hardness and dimensional stability over a wide range of temperatures. It benefits from good abrasion resistance, can be sterilised and is suitable for use at temperatures of up to 130°C.

GRAND MAÎTRE

THERMOPLASTIC ELASTOMERS

TPE

TPE combine the easy processing of thermoplastics with the beneficial properties of elastomers. They are extremely flexible over a wide range of temperatures, very strong and benefit from good impact and notch impact strength, even at low temperatures. TPE materials can be used at temperatures of up to 80 - 110°C.

FIBROX, SWISS CLASSIC

ROSEWOOD*

High-quality rosewood comes from India and is FSC-certified (controlled wood). This very hard wood is tough, durable and benefits from low shrinkage. It is also highly resistant to moisture.

ROSEWOOD, GRAND MAÎTRE

BUBINGA WOOD*

Originates from Gabon (Africa), bubinga wood is extremely hard and resistant to moisture. It is FSC-certified (pure).

KITCHEN UTENSILS

BEECHWOOD*

European beech is a hard wood that is ideal for work knives. Most knife blocks are also made of beech. This wood is FSC-certified (pure).

STORAGE + CUTTING BOARDS

* All products with wooden handles are not dishwasher safe.

PACKAGING

ICON

S	B	G
6	10	1

— Packaging variation
— Sales unit (quantity*)

* Please avoid ordering low quantities. In most cases, the content consists of 6, 10 or 12 pieces, rarely 1 or 20 pieces.

Standard packaging (S) / Blister (B) / Gift Box (G)

GIFT BOX

6.7133.2 **G**

Gift box packed products are denoted with «G» at the end of the item number.

STANDARD PACKAGING

The following options apply to standard packaging: S-sheath for blade protection, SB-sheath for self service, folding box or bulk products.

BLISTER

6.8713.20 **B**

Blister packed products are denoted with «B» at the end of the item number.

DISPOSABLE BLADE PROTECTION

The majority of the single-packed vegetable knives from the Swiss Classic and Standard lines, are provided with disposable blade protection. Mostly available in sales units of 20 pieces.

NSF/ ANSI 2

NSF International is a recognized global independent organization whose responsibility lies in the development of public health standards and certification programs. Only products that meet NSF International standards will be certified and must bear the NSF icon.

All products that have been tested by NSF International in this catalog, meet the guidelines of NSF / ANSI 2 and all other applicable requirements, are marked with the NSF icon.

SWISS QUALITY

A product can be classified as «Swiss Made» if at least 60% of production costs are occurred in Switzerland.

The knives and tools produced by Victorinox are manufactured entirely in Ibach-Schwyz and Delémont. They are thus «Swiss Made» and this is shown on the blade or packaging.

Swiss Made lettering; etched onto product

Swiss Made eagle emblem; etched onto product

VICTORINOX

SWISS MADE

CORRECT HANDLING AND CARE

The Blade

Regular care is needed to keep it in top condition. To ensure for long service life, clean knives with a mild detergent under running water immediately after use.

If knives are left uncleaned over a long period of time, salty or acidic food waste may leave marks on the blade.

Icons on the packaging indicate whether a knife is dishwasher safe.

Highly polished knives should only be used for cutting, not for prying or hacking. For bones or similar materials, please use suitable robust Victorinox products (e.g. Cleaver).

The Sharpening Steel

Cleaning the sharpening steel keeps it hygienic and in optimum condition. Please also clean sharpening steels with a mild detergent under running water and let dry completely. Store sharpening steels in a knife block if possible.

Wooden Handles

(e.g. Rosewood)

Rosewood is an extremely robust, hard-wearing wood and, thanks to its naturally high oil content, is also highly resistant to moisture. To maximize the service life of knives with wooden handles, never wash them in a dishwasher.

Synthetic Handles

(e.g. Swiss Classic)

The synthetic handles of our household knives are generally dishwasher safe. It is however recommended, to clean the product by hand.

DISHWASHER SAFE

All dishwasher safe products bear the portrayed icon and can be cleaned in the dishwasher. Please make sure that the knives do not touch other metal utensils in the cutlery basket. In the long run, a change in color in-

tensity and rusting may occur. Forged knives with POM handle are dishwasher safe. It is however recommended, to clean the product by hand.

ROSEWOOD

NATURALLY!

HANDLE WITH UNIQUE PATTERNING
ERGONOMIC AND PURE DESIGN
EASY AND COMFORTABLE TO USE

Multi-functional. Natural. Stylish.

Rosewood is generally highly robust, making it ideal for producing knife handles. The handles of our Rosewood line are carefully hand-polished, creating a smooth surface that is comfortable to hold, use and are thus naturally elegant.

SWIBO

THE ONES WITH THE YELLOW HANDLE

BRIGHTLY COLORED HANDLES
EXTREMELY SAFE
DISHWASHER SAFE

Health and safety is a top priority for us.
The bright yellow coloring ensures your knives are easy to spot, even
in a busy working environment. The handle, which extends further
toward the blade, provides extra safety.

GRAND MAÎTRE

PASSION FOR THE TRADE

PERFECT BALANCE
FORGED FROM A SINGLE PIECE
LONG SERVICE LIFE

Amateur cooks and professional chefs alike are impressed by the perfect balance of these knives. All models in this line are forged from a single piece and benefit from a seamless transition from blade to handle. This exceptional quality and timeless elegance are what make forged knives from Victorinox so special.

Grand Maître POM / Grand Maître Rosewood ►►

WE MAKE EACH DETAIL OUR BUSINESS

THE CUTTING EDGE

exhibits particularly high edge retention

THE BLADE

tapers evenly toward the cutting edge.

THE BOLSTER

is the thickening between the handle and the knife blade which provides a smooth transition from the blade to handle and improves control.

THE HANDLE

is ergonomically shaped.

THE RIVETS

pass through the steel and handle to create an exceptionally stable connection.

SPINE OF THE BLADE

THE BALANCE

is perfectly calculated. It ensures the knife is comfortable to hold and makes it easier to use, even over longer periods.

FULL TANG CONSTRUCTION

Forged from a single piece and hardened uniformly.

STORAGE + CUTTING BOARDS

READY AT HAND

- EASE OF USE
- LONG SERVICE LIFE
- PROVEN AND DURABLE MATERIALS

These compact storage solutions for the kitchen take on an important role with their exceptional functionality and ingenious form and layout. Clean up made easy with the knife holder for the drawer and the practical cutlery blocks, you can tuck away your knives safely using little space.

The cutting board made of environmentally friendly wood fiber material helps keep your knives sharp and can be easily cleaned in the dishwasher.

about the right way
to sharpen a knife

SHARPENING + SAFETY

EASY. EFFECTIVE. SAFE.

RUST RESISTANT
EXCEPTIONALLY LONG SERVICE LIFE
EASY AND EFFICIENT TO USE

For an enjoyable cooking experience, you need sharp knives, and to keep your knives sharp you need to use a sharpening steel regularly. All our models are produced in Europe, and experience shows they offer an exceptionally long service life. Ergonomically designed handles ensure the tools are comfortable to hold.

CULINARY CREATIVES USE KNIVES FROM VICTORINOX

Top chefs set superior standards for their culinary creations – and the same applies to the equipment they use. Of course, to perfect their art they need top-quality produce and extraordinary ideas, but a high-quality knife in hand is also a key ingredient in the recipe for success.

World-class chefs put their trust in the Victorinox brand and make good use of our Cutlery collections:

Nenad Mlinarevic

18 Gault Millau Points and «Swiss Chef of the Year 2016». Chef de Cuisine of the two Michelin-star «Focus» restaurant in Park Hotel Vitznau, Switzerland.

MULTI-TOOLS

For dirty and sticky blades, we recommend opening and closing the blades several times in warm water until they move freely. Allow to dry completely. Add a drop of oil between the blades and the tool casing or springs as well as other friction surfaces.

Multi-tools should never be cleaned in a dishwasher.

We recommend:
Multi-Tool Oil (item number 4.3301)

Key features:

- Maintains tool mechanics
- Protects against corrosion
- Meets NSF H1 requirements

HOUSEHOLD AND PROFESSIONAL KNIVES

Victorinox recommends rinsing knives under running water directly after use. Salt or acidic leftovers can lead to spotting if the knife is left uncleaned over longer periods of time. Knives that are dishwasher safe are marked with the corresponding icon within the catalog.

B BLISTER (B)

VICTORINOX WARRANTY

Victorinox AG guarantees all knives and tools to be of first class stainless steel and also guarantees a life time against any defects in material and workmanship (save for electronic components 2 years).

Damage caused by normal wear and tear, misuse or abuse are not covered by this guarantee.

- A service charge may apply for repairs and services that are not covered by the warranty.
- Our standard warranty repair includes replacement of parts that are broken, bent or suffer from general wear and tear. All other parts will be polished.
- If there are tool parts of sentimental value, that you do not want replaced or if you wish for a part or parts to be returned, please state this in written form.
- If you are from Switzerland, please contact your local retailer or send us your tool, well packed, directly to our repair department:
- If you are from Germany, Austria, Belgium or Luxemburg, please contact your local dealer or send us your tool, well packed, directly to our repair department:
- If you are NOT from Switzerland, Germany, Austria, Belgium or Luxemburg, please contact a local Victorinox representative or local dealer. They will be glad to assist you and possible mail delivery fees to and from Switzerland, are included in the warranty.

HANDLE-COLORS

FIBROX HACCP-LINE

HACCP (Hazard Analysis Critical Control Points) is a preventive system – a risk management that provides safety for food and consumers. Victorinox has implemented the colored Fibrox handle HACCP concept according to the international food regulations.

Thanks to the colored handles, the scope of application for each knife is visible.
